

IPAF MCWP Advanced Installer training.

AIM

To further instruct the trainee, over and above the modules required for INSTALLER, on compiling risk assessments and method statements, undertaking thorough examinations of the complete installation, on demonstrating the use of various types of Mast Climbing Work Platforms (MCWP) to others and the planning, selection and use of MCWP's on a particular job site. Also to understand the implications and limitations of MCWP's in respect of their use with special platform configurations, non standard tie arrangements and anchor selections.

Course entry criteria:

As the assembly and use of MCWP's can be physically demanding, users should be physically fit and in good health and should, **generally**, not have problems with eyesight or hearing, heart disease, high blood pressure, epilepsy, fear of heights/vertigo, giddiness/difficulty with balance, impaired limb function, alcohol or drug dependence or psychiatric illness. If you have any problems with literacy or language comprehension or have any doubts about your fitness to use MCWP's, you **must** bring them to the attention of your employer. This need not preclude you from using MCWP's, provided your employer conducts an assessment and is able to put into place adequate measures, to take account of any difficulties you may have.

If any modules required for this application have been completed more than two years prior to application, then the theory tests for those modules (if any) should be retaken and re-assessed.

Training modules:

- All modules covered by the IPAF Installer training.
- Planning MCWP use.
- Undertaking hazards & Risk assessments.
- Special platform arrangements.
- Compiling Method statements.
- Advanced tie installation.
- MCWP Thorough examination.

Course format:

This course comprises of both theoretical and practical training, with written and practical assessments.

Assessment:

Will be by both practical and theoretical test, with a pass requiring an achievement of at least 80% in each assessment. The assessment of each module will be reviewed with the candidate at the end of the training to allow feedback and comments. Those who successfully complete the course will receive an "IPAF PAL card" for "**MCWP Advanced Installer**".
